

**DESCRIPTION/SPECIFICATIONS**

RPR Products manufactures Insul-Box™ Aluminum Siding from a rolled process forming a continuous pattern of 9/16" high ribs on 2.67" centers which yields maximum structural stiffness. An under lapping support leg is rolled on one end of the sheet which provides better alignment, reduces gapping and protects against wind blown rain.

Alloy: Aluminum 3105

Finish: Diamond Embossed

Thickness: Aluminum - .021"

Width: 51" overall (48" Coverage)

Lengths: 3' to 30'

Colors: Special colors upon request (minimums apply)
